HIGH-SPEED DOCUMENT SCANNERS

imageFORMULA

HIGH-SPEED DOCUMENT SCANNERS

Canon U.S.A., Inc., headquartered in Lake Success, NY, delivers commercial imaging solutions. Canon's complete line of document, network, and check scanners, enable businesses to improve costs, efficiencies, management, security, and compliance related to capturing, storing, and sharing information.

The Canon imageFORMULA scanners satisfy a wide variety of document imaging needs and budgets with a full-range of scanning solutions. They offer the kind of high-performance features that make converting paper to electronic documents easier, such as high-speeds, advanced image processing, and flexible configuration options.

The complete Canon scanner line offers high image quality, leveraging years of experience in developing high-precision optics technologies. It also offers flexible and reliable scanning of mixed batches of documents. And finally, it delivers outstanding value.

Canon scanners are based on a tradition of excellence, with solutions designed to improve workflows and cater to user and corporate requirements. Canon scanners are efficient and affordable imaging solutions, satisfying a wide variety of content management needs. With strong alliance and compatibility partnerships, strong industry associations, and strong channels of delivery and fulfillment, Canon can help any business make the transition into the paperless office.

Network Scanners

The Canon imageFORMULA ScanFront Series of network scanners is ideal for decentralized or distributed scanning applications, and for easily sharing documents via a network. They are easy-to-use and manage, secure, and plug right into an office network to deliver direct network scanning and sending.

Ethernet

FULL-FEATURED, EASY-TO-USE NETWORK DEVICES

The ScanFront 300/300P were designed to simplify the distribution of business information across a network to specified destinations while improving the security of data being shared, maintaining information quality, and lowering overall workplace costs.

- Network ready, stand-alone scanners
- Scan to E-mail, network folders, FTP, USB drive, fax, printer
- Customizable Scan-To-Job buttons
- Powerful device administration
- Scan up to 30 pages per minute
- 8.4" SVGA liquid crystal display
- Available SDK
- Manage multiple devices with the Administration Tool

Scanning:

Speed:	Up to 30 ppm / 60 ipm*
Scanning Modes:	Color, Grayscale, Black & White
Optical Resolution:	600 dpi
Feeder Capacity:	50 sheets
Document Size:	Width: 2" – 8.5" Length: 2.1" – 14"
Suggested Volume:	3,000 scans / day

Network:

Sending Functions:	Scan-To-Network Folder, FTP, Scan-To-E-mail, USB Drive, Fax, Printer
Protocols:	TCP/IP, SMTP, DHCP, SMB, LDAP, NTP

General:

Dimensions:	H 6.3" x W 12.2" x D 8.7"
Weight:	7.9 lbs.
Interface:	LAN 10Base-T/100Base-TX, USB 2.0x4,
Power Consumption:	30W or less

Features:

- Auto Page Size Detection
- Prevent Bleed-Through/Remove Background
- Color Dropout / Enhance Color
- Deskew
- Fingerprint Reader (300P Only)
- Skip Blank Page
- Ultrasonic Double-Feed Detection (300P Only)

Options & Consumables:

- Exchange Roller Kit
- Soft Carrying Case
- eCarePAK (Exchange Service)

ENERGY STAR

Scan-tini

PERSONAL DOCUMENT SCANNER WITH BUILT-IN CARD SCANNER

An "on-the-go" solution for Windows and Mac environments complete with plastic and embossed card scanning capabilities.

- Dedicated card scanner for plastic and embossed card scanning
- USB powered (no AC adapter required)
- Compact and convenient
- "Plug-and-Scan" capability without loading scan drivers and applications
- Scan directly to cloud applications like Google Docs, Evernote, and Microsoft SharePoint

Scanning:

Speed:	Up to 15 ppm / 30 ipm*
Scanning Modes:	Color, Grayscale, Black & White
Optical Resolution:	600 dpi
Feeder Capacity:	20 sheets
Document Size:	Width: 2" – 8.5" Length: 2.8" – 14.0"
Suggested Volume:	500 scans / day

General:

Dimensions:	H 1.6" x W 11.2" x D 3.7" (with trays closed)
Weight:	2.2 lbs.
Power Consumption:	*** 2.5W – 7W
Interface:	Hi-Speed USB 2.0, USB 3.0 (Power)
Drivers:	ISIS/TWAIN for Windows TWAIN for Mac

Features:

- Advanced Text Enhancement
- Auto Color Detection
- Auto Page Size Detection
- Background Smoothing
- Character Emphasis
- Full Auto Mode
- Shadow Cropping
- User Preferences

Bundled Software:

- Canon CaptureOnTouch (W/M)
- Canon CaptureOnTouch Lite (Embedded for Windows & Mac)
- Nuance PaperPort (W)
- NewSoft Presto! PageManager (M)
- NewSoft Presto! BizCard (W/M)

Options & Consumables:

- AC Adapter
- Carrying Case
- Replacement USB Cable
- Separation Pad
- Feed Roller
- eCarePAK (Exchange Service)

*Examples based on typical settings, rated in pages/images per minute with letter-sized documents, portrait-feeding directions, up to 150 dpi, with one USB cable and AC adapter; one USB 3.0 cable; or, two USB 2.0 cables. Actual processing speeds may vary based on PC performance and application software.
** Calculations based on scanning speed and typical daily time of use.
*** Power consumption varies depending on the USB/AC adapter configurations used.

Office Scanners

Canon´s line of imageFORMULA DR-Series office scanners enables small and medium-sized businesses (SMBs) and large enterprises alike to capture documents closer to the work itself. These compact, desktop-friendly scanners can be used by individuals or by small groups of users for ad-hoc, general purpose scanning tasks, as well as for some decentralized production scanning tasks, and they represent outstanding value.

The Flatbed Scanner Unit 101 is a device designed to complement Canon's high speed document scanners and widen the variety and types of documents that can be scanned to include bound, thick, and fragile documents.

- Simple USB connectivity
- Flexible operation
- Advanced image processing up to 1200dpi
- Adaptable hardware allows for "Open Scanning" of books and bound documents

*Compatible with most DR Series scanners

Other Options & Accessories

Depending upon the scanner model, various other options and accessories may be available, such as rollers, carrying cases, and AC adapters. Please check www.usa.canon.com/scanners for the latest list of additional options and accessories.

eCarePAK
Extended Service Plan

ISIS / TWAIN Driver

ISIS and TWAIN are industry standard drivers for optimal performance and easy integration of software applications with Canon document scanner hardware.

Kofax VirtualReScan (VRS)

Kofax VirtualReScan (or VRS) improves scanning productivity by reducing the time involved in manual document preparation and automatically enhancing the quality of scanned images.

NewSoft Presto! BizCard

NewSoft Presto! BizCard quickly and easily converts the vital contact information on business cards into a convenient, searchable, digital database that can be easily synchronized between PCs, notebooks, PDAs and PIMs.

Nuance eCopy PDF Pro Office

eCopy PDF Pro Office, the enterprise-ready PDF solution from Nuance, is a powerful, easy-to-use PDF solution that lets users create, convert, and collaborate like never before for dramatic productivity gains and cost savings.

BUNDLED SOFTWARE

Nuance PaperPort Standard

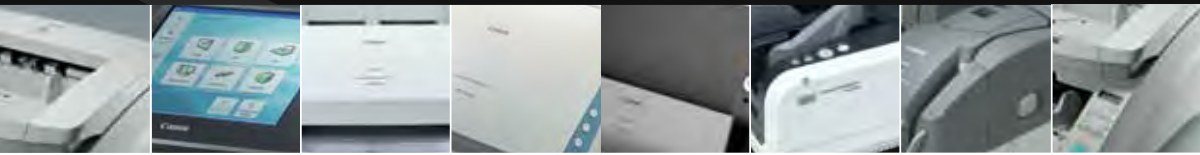
PaperPort document management software is a fast and easy way for users to scan, organize, find, and share documents and photos. It combines the power of document scanning, the efficiency of digital desktop organization, and the convenience of high-quality PDF document creation/assembly in one easy-to-use application.

Software Plug-ins

Plug-ins are included with CaptureOnTouch for software and cloud applications such as Microsoft SharePoint, Google Docs, and Evernote.

Scanner bundled software is not limited to those listed. Scanner bundled software packages vary depending on the scanner model.

Please check www.usa.canon.com/scanners for the latest list of bundled software.



Canon Software – CapturePerfect

Comprehensive Document Imaging Software to Maximize Canon Scanner Performance

Canon's CapturePerfect software delivers image processing features needed to obtain the highest image quality in even the most rigorous scanning environments. It is designed to help maximize Canon scanner performance, increase productivity and streamline document imaging workflows.

CapturePerfect helps Canon scanners deliver images of the highest quality, true to their original form, while providing convenient ways to edit, arrange, and manage files with a drag-and-drop interface. Precise images can be captured from even the most difficult original documents for immediate distribution to file folders, presentations, printers, and e-mail.

CapturePerfect software can help increase the productivity and workflow of a company's Enterprise Content Management (ECM) process.

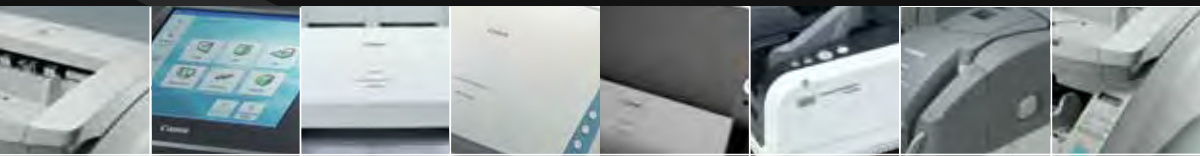
Canon Software – CaptureOnTouch

Increase User Productivity by Simplifying the Document Scanning Process

Canon's CaptureOnTouch software tool can help increase user productivity by simplifying the document scanning process. The intuitive interface enables users to quickly and efficiently scan documents and automatically distribute them to various destinations including cloud applications.

Developed for quick and easy scanning, CaptureOnTouch leads users through the complete scanning process step-by-step. Even if familiar with document scanning and electronic data storage, businesses can profit from reduced user errors and save valuable time through faster processing and improved control of file distribution.

The CaptureOnTouch software tool can help provide extra value by simplifying how scanning tasks are handled by companies that are striving to improve their document imaging processes.



EASY INTEGRATION AND COMPATIBILITY

Canon's imageFORMULA scanners are an integral element of Enterprise Content Management solutions. As front-end capture hardware components, the scanners' reliability, performance, and feature-rich functionality are critical for ensuring the accuracy and overall effectiveness of any document management workflow.

Recognizing this, many of the industry's leading software companies have tested Canon's Scanners for compatibility with their products. With this compatibility, customers are ensured the reliability and benefits of a complete document management solution. Moreover, they have the flexibility of selecting a hardware product that will operate effectively with the software applications they are currently using, even cloud applications.

With an extensive portfolio of scanners designed to target various business applications, customers are assured the best hardware product to suit their needs. From distributed imaging and desktop scanning workflows to centralized batch processing of high-production workflows, Canon's scanners are equipped to perform.

INVESTMENT PROTECTION

Service and Support

Canon imageFORMULA scanners are designed to provide customers with a rewarding ownership experience. These products are supported nationwide through a network of factory-trained and authorized Canon service providers. These providers attend Canon training classes on the latest products, service methods, and tools. They also have the latest information about the products they service, including technical documentation, and access to a service Website, and technical support hotline.

Canon eCarePAK

eCarePAK optional service plans extend service and support beyond the initial warranty period. eCarePAK coverage can save costs associated with post-purchase maintenance, maximize uptime throughout the life of the product, and make end-users feel confident in their Canon scanning investment for years to come.
